

# ABOUT

At eLAAZ कोष, We are on a Mission to revolutionize healthcare access in India. We have identified a critical gap in the healthcare system- drug-drug or drug-herb interaction awareness, patients' trust and assurance in their healthcare providers, the treatments they receive, and their medication safety. Our AI-powered medical chatbot is designed to address this issue and is specifically tailored to the Hindi-speaking population of India. By combining advanced AI and NLP technologies with an understanding of India's linguistic diversity, we provide a service that is not only innovative but also deeply rooted in the needs of the people.

# “AI- Enabled Medical Assistance Chatbot to Resolve you Medication Query”

## Our solution

A Cutting-edge Medical Chatbot that offers real-time, personalized advice on **drug-to-drug/drug-to-herb/drug-to-food interactions** in **patients' daily lives**. Our solution helps patients, elderly people, and rural populations avoid the dangers of unknown **Drug Toxicities** and their **Adverse Effects** by providing:

1. **Real-Time Interaction Checking** : Instant analysis of potential drug interactions, ensuring safe medication use.
2. **Personalized Medication Advice**: Tailored guidance based on individual health profiles and medication history.
3. **Multilingual Support** :Our chatbot speaks your language, with a primary focus on Hindi to cater to the majority of the Indian population.

## Why Choose eLAAZ कोष?

- **Patient-Friendly & Easy to Understand**: Our chatbot is designed to be accessible and intuitive, making it easy for users to interact with and understand the advice provided.
- **Native Language Support**: We currently prioritize communication in Hindi and English, with plans to expand to 16+ regional languages. Ensuring that the majority of Indians can use our service comfortably, with plans to expand to other regional languages.
- **Available on Any Device**: Whether you're using a smartphone, smartwatch, or even a basic phone through a toll-free number, eLAAZ कोष is always within reach.
- **Flexibility & Accessibility**: Our service is available through mobile apps, web pages, WhatsApp chatbots, toll-free numbers, tele-consultancy, and telemedicine, ensuring that everyone, regardless of their location, can access our advice

## Benefit?

1. **Patients**: Receive accurate, real-time advice on the safety of your medication combinations.
2. **Elderly People**: Manage your health with confidence, knowing that you're protected from adverse drug interactions.
3. **Rural Populations**: Access critical healthcare information in your native language, no matter where you are.
